INTRODUCTION

HILL DIRECTORY CO, Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1941 edition of the Fayetteville City Directory. A new feature, the designation of homes and places of business having telephones, marks this edition.

Confidence in the growth of Fayetteville's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as section of this Directory are consulted, for the Directory is a mirror truly reflecting Fayetteville to the world.

The enviable position occupied by HILL's Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Fayetteville Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 25 to 495, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Fayetteville, and the name, official personnel, nature and address of each firm and corporation in the city.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 56, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Fayetteville. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Fayetteville, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 553 to 619, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages

621 to 693. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. A feature of this section is the designation of tenant-owned homes. A new feature is the designation of homes and places of business having telephones.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Fayetteville.

The Fayetteville Directory Library

Through the courtesy of the publishers of the Fayetteville City Directory, a Directory Library is maintained in the offices of the Fayetteville Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Public Libraries—1, with 8,250 volumes.

City Statistics—Total street mileage, 60, with 40 miles paved. Number of water meters, 4,197; light meters, 5,364; gas meters, 1,200. Capacity of water works (municipal), 900,000,00 gallons. Volunteer fire department. Police department has 37 men.

General Review

With a mellowed historical background, Fayetteville is one of North Carolina's most progressive and fastest growing cities. Blessed with an atmosphere of friendliness, and hospitality, unexcelled health and climatic conditions, splendid schools, churches, hospitals, banks, hotels, newspapers, good agricultural environments, excellent transportation facilities, a large trade territory and a diversity of industry, Fayetteville has all the factors required to make a well-balanced community.

HISTORY—For a number of years prior to 1791, Fayetteville was the capital of North Carolina, and during this period several historical events occurred, such as North Carolina's Ratification of the Constitution of the U. S., the ceding of the State of Tennessee to the U. S. Government, and the chartering of the University of North Carolina, all of which was done during the year 1789. The town was originally known as "Campbellton" and was "laid out" in 1762 by a colony of Scotchmen who had settled in this area about 1739. Three years later, in 1765, another Scotch settlement was made one mile west of Campbellton and was named "Cross Creek." During 1778 these two communities were merged under the name of "Upper and Lower Campbellton," but changed to "Fayetteville" in 1783 in honor of General Marquis de LaFayette, the gallant Frenchman who aided America in gaining its independence, and at that time the city was incorporated. General LaFayette paid Fayetteville a visit on March 4, 1825, but the naming of the town for him 42 years earlier was in recognition of his services to this country, and not to commemorate his visit, as many have erroneously believed.

LOCATION—Fayetteville, the county seat and approximately in the center of Cumberland County in the southeastern part of North Carolina, is located on the west bank of the Cape Fear River, 115 miles northwest of Wilmington by water, 90 miles by highway, and 84 miles by rail.

TOPOGRAPHY—Fayetteville and contiguous territory is situated in a gently-rolling type of country, affording natural drainage, with a clay subsoil and a porous, sandy topsoil of such character as to prevent the accumulation of water puddles of long duration, or offensive mud after heavy rainfalls. Fayetteville is also at the eastern border of, and included in, the famous "Sand Hills" section of North Carolina, in which Pinehurst, Southern Pines, Sanatorium, and other well-known winter and health resorts are located.

CLIMATE—Though the varying seasons are well-defined, Fayetteville is not subjected to extremes of either hot or cold weather. Industrial plants are unhampered by climatic conditions, and sunstroke is an unknown quantity. Fayetteville's elevation above sea level ranges from 104 feet at the Market House to 170 feet on "Haymount" in the western part of the city. Its rainfall is well distributed, and during the past 40 years has averaged 48.1 inches per annum. During a slightly longer period the average annual temperature has been 61.7 degrees.

CHURCHES—Fayetteville might well be called a "City of Churches," having 28 white churches, and 18 colored. Ten denominations are represented, and some of the edifices would do credit to a much larger city. The people go to

church and Sunday school regularly and are always ready to extend a warm welcome to visitors.

HOSPITALS—Fayetteville has several modernlly-equipped hospitals, all served by skilled physicians and trained nurses. Hospitals located in Fayetteville and vicinity are as follows: Highsmith Hospital, 125 beds; Pittman Hospital, 100 beds; Eye, Ear, Nose and Throat Hospital, 12 beds; Fort Bragg Hospital (9 miles distant), 80 beds; N. C. Sanatorium (25 miles distant), 550 beds.

RECREATION—Fayetteville has a public nine-hole golf course; ten municipal tennis courts; five motion-picture houses, with a combined seating capacity of 3,490; a well-maintained Y. M. C. A., with swimming pool, gymnasium, recreation rooms, etc.; a city library; two bowling alleys, and five pool and billiard parlors. At Fort Bragg, nearby, there are facilities for many forms of recreation, such as polo, tennis, baseball, football, basketball, golf, fishing and horseback riding.

WATER SUPPLY—Fayetteville enjoys an adequate and unfailling supply of spring water flowing from the adjacent sand hills, analyzed four times a year, under daily supervision and control, and its water supply has always proved to be unsurpassed from the standpoint of excellence and purity. The City owns and operates its own water works, controlling three reservoirs, with a combined capacity of 900,000,000 gallons.

HIGHWAYS—Fayetteville is especially well-equipped with a network of improved highways. Eight of these are hard-surfaced, and radiate in all directions toward the population centers of the country. Included in these are U. S. Highways 15-A and 301, intersecting at Fayetteville, and which carry the bulk of motor traffic between the congested areas of the East and Florida winter resorts. As a stop-over point, few cities, if any, are more highly regarded by tourists, than Fayetteville.

AD VALOREM TAXES—Basis for property assessments for taxation, approximately 60% of actual value, and the ad valorem tax rates for all purposes are as follows: County and State, \$1.96; City, \$.70; School, \$.14; Cemetery, \$.03; total, \$2.83 per \$100.

BUS TRANSPORTATION—With two exceptions, Fayetteville enjoys the most frequent bus schedules of any city in North Carolina. This service is rendered by the Queen City Coach Co., the Atlantic Greyhound Corp., and the Carolina Coach Co., all of which operate spacious, modern busses out of a new, well-appointed union bus station, centrally located. In addition, an adequate suburban bus service is available to and from populous centers in the outlying areas.

RAIL TRANSPORTATION—Fayetteville is located on the double-tracked main line of the Atlantic Coast Line Railroad, 214 miles south of Richmond and 466 miles north of Jacksonville. The same company operates three branch lines out of Fayetteville, reaching Wilmington and Sanford, N. C., and Columbia, S. C., together with intermediate points. The city is also served by the Aberdeen & Rockfish Railroad, connecting with the Seaboard Air Line trunk stem at Aberdeen, N. C., and the Norfolk Southern Railroad to Raleigh, Durham, Charlotte, Norfolk and other important centers.

RIVER TRANSPORTATION—Fayetteville is at the head of navigation on the Cape Fear River, making it the farthest inland port in North Carolina. The Federal Government has completed the canalization of this stream to Fayetteville at an expenditure of \$2,970,000, including locks, which provides for a year-'round minimum depth of eight feet of water and an average flow of 4,900 cubic feet per second. The City of Fayetteville, at a cost of approximately \$95,000, has provided river terminals, including warehouse, loading platforms, crane, rail connections, etc. With such facilities available, and the substantial savings in transportation charges as may be effected by the water haul into Fayetteville, this city makes an ideal location for the distribution of heavy commodities. It is believed that the old-time importance of the Cape Fear as a traffic artery will, in a measure, be regained.

LABOR CONDITIONS—Having a large rural population on which to draw, industry in the Fayetteville area is assured of a practically inexhaustible supply of native-born labor that is loyal, capable, easily trained, and willing to work for reasonable, "live-and-let-live" wages. American-Plan Open-Shop conditions prevail generally, and public sentiment overwhelmingly supports this policy.

INDUSTRY—While Fayetteville is primarily an agricultural city, industry is well represented by plants manufacturing cotton yarns, silk and rayon products, curtains, draperies and upholstery, full-fashioned hosiery, chemicals and allied products, wooden containers, lumber and planing-mill products, veneers and plywoods, office and store fixtures, metal products, stone, clay and glass products, waste, mattresses, cottonseed products, food and kindred products, etc. In addition, Fayetteville has five printing and publishing plants, two cotton gins, and two steam laundries. The total industrial employment includes approximately 4,000 people, 70% of whom are male and 30% female.

VETERANS' HOSPITAL—Due to its strategic location and other favorable factors, Fayetteville was recently awarded the Veterans' Administration Facility for North Carolina, the initial cost of which was \$1,500,000. The main building, embodying the architectural features of Fayetteville's "Olde Market House," is a most beautiful and imposing structure. It is equipped with 310 hospital beds and quarters for the Administration of Veterans' Affairs for quite a large territory. It is believed the institution will prove of great value to the city, and a pronounced convenience to the veterans in the Fayetteville area in need of hospitalization.

FORT BRAGG—Located nine miles northwest of Fayetteville, on State Highway No. 87, is Fort Bragg, the largest artillery range in the world, embracing approximately 130,000 acres of land. The Government has spent recently an enormous sum for new buildings and other improvements. A total of 2,650 new buildings have been built, including three hospitals—one of 250 beds, one of 1,000 beds and one of 2,000 beds; four large cold storage plants; and two huge water tanks—one of 300,000-gallon capacity and one of 1,000,000-gallon capacity. The personnel reached 66,000 on July 1, 1941. This institution is a very valuable asset to Fayetteville and to the State of North Carolina, and its personnel is especially appreciated since it is of the highest type and most cooperative in every way.

POINTS OF INTEREST—YE OLDE MARKET HOUSE: Originally the site of the State House when Fayetteville was the capital of North Carolina. Destroyed in the great fire of 1831 and rebuilt in 1838; still in perfect condition and regarded by experts as an architectural gem. Now being utilized as a public library and rest room. **LIBERTY POINT:** At this spot on June 20, 1775, more than a year before the Philadelphia Declaration of Independence, 39 Cumberland County patriots met and adopted resolutions of independence and pledged themselves to the defense of American liberty. The spot is suitably marked with a tablet, imbedded in a granite boulder, with the names of those dauntless men engraved thereon. **COOL SPRING:** An old Indian spring and for more than a century the main drinking water supply of lower Fayetteville. It was here that Flora MacDonald, the Scottish heroine whose heroic act saved the life of "Bonnie Prince Charlie," is said to have reviewed the Highland Scotch Army led by her husband, Capt. Allen MacDonald, just before it started on its ill-fated march to Moore's Creek Bridge in 1776. **McNEILL'S MILL:** A Grist mill, erected by Robert Cochran, a Pennsylvania Quaker, in 1764. The old mill is still in operation and the original foundations were utilized for the present mill structure. **MASONIC LODGE:** Organized in 1760 and with records back as far as 1788. General LaFayette visited this lodge on his memorable trip to Fayetteville in 1825, at which time he delivered a speech from the balcony of "Ye Olde Market House" thanking the people for naming the town in his honor. **OLD ARSENAL SITE:** It was here in 1838 that the U. S. Government erected a huge arsenal on a beautiful tract of 40 acres. Part of the machinery used in the arsenal was brought from Harper's Ferry. When the War Between the States began, the arsenal was seized by the Confederates for the manufacture of small arms. It was recaptured and completely destroyed by Sherman's army in 1865. A suitable marker, built with some of the old foundation stones, is on the grounds. **CONFEDERATE MONUMENT:** One of the most imposing of similar structures, situated within two blocks of Cross Creek Cemetery, where a Confederate shaft was unveiled Dec. 30, 1868, said to have been the first of its kind in North Carolina, and the second in the entire South.

**TRULY, FAYETTEVILLE'S PAST IS GLORIOUS AND ITS
FUTURE PROMISING.**

Borrowers Are Welcome at This Bank

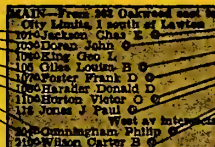

Don't Use an Old Directory!

One Address taken from an old Directory may send you miles out of the way and waste a whole day's time. You take pride in keeping a fresh stock of merchandise on your shelves—

Why not avail yourself of fresh information for your daily use?

—means
**TELEPHONE
SUBSCRIBER**

—means
**HOME
OWNER**

THE HOME-OWNER SYMBOL, in the Householders' Guide of the New City Directory, designates Home-owners on every Street and Avenue in the city. As a means of Checking Credits, conducting Direct Mail Campaigns, Sales Planning, Prospect Lists, etc., it is of invaluable assistance.

THE BELL SYMBOL designates Telephone Subscribers and appears in the Householders' Guide following street numbers.

NEW FEATURES and DEPARTMENTS are constantly being adopted in our efforts to improve and add to the recognized value of the City Directory service demanded by the public.

FACTs!!

ABOUT CITY DIRECTORY CIRCULATION

The true value of advertising circulation is circulation consulted—"User Circulation."

To be exact by actual survey in twenty-four average American cities by actual count each city Directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand Directories sold there is an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

1,067,500

Consultations or "User Circulation"

I am looking for some one --

Likewise, some one is looking for me

If I have something to sell and I am not listed
in this Directory under the proper headings

I LOSE A CUSTOMER

VIA McLEAN

There's more than meets the eye behind these words—we look at them like this;

- (1) Fast direct through service between New England, Eastern Cities and the South.
- (2) Strategically located terminals throughout the East and South.
- (3) Careful, efficient handling of all shipments.
- (4) A minimum of damage to fragile cargoes.
- (5) Modern new equipment.
- (6) Intelligent, courteous drivers.

And these six points add up to an organization that goes out of its way to give the finest in freight transportation—we call that CUSTOMER SATISFACTION.

HILL'S FAYETTEVILLE

Directory of Household-ers, Occupants of Office Build-
ings and Other Business Places, Including a
Complete Street and Avenue Guide

1941

Copyright, 1941, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes householders and places of business having telephones.

*** between two intersecting streets denotes there are no houses between them on that particular street.

(c) denotes colored.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be

made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
